MYCON ENGINEERING

ABOUT US

6

We build things that Architects dream about. A Successful Career is Awaiting for you!

At MYCON Engineering, we deliver high-quality engineering training, manpower supply, and testing services that equip individuals and organizations with essential, practical skills for today's industries. Our mission is to provide engaging, hands-on training and reliable workforce solutions tailored to the demands of the modern workforce.

In addition to our specialized courses in welding, piping, HVAC/MEP, and quality assurance, we offer a comprehensive manpowwer supply service, sourcing skilled workers from India across various trades and industries. Each candidate undergoes rigorous skills verfication at our in-house testing center to ensure they meet the specific standards required by our clients. With state-of-the-art tools and technology, MYCON ensures both our trainess and supplied workers are fully prepared to make an immediate impact.

Our modern facilities, experienced instructors, and unwavering commitment to excellence set MYCON Engineering apart. From foundational courses for beginners to advanced certification programs, we cater to a wide range of professional needs. At MYCON, we're dedicated to providing the knowledge, practical skills, verified manpower, and recognized certifications that support career growth and add measurable value to organizations

TEST CABIN FOR FITTER

Mycon EngineeringCompany introduces a cutting-edge test cabin tailored for fitters, ensuring precision and efficiency in component assembly. Equipped with state-of-the-art tools, ample space, and safety features, our cabin streamlines fitting tasks. Experience seamless workflows and superior quality control with our innovative fitter feature.

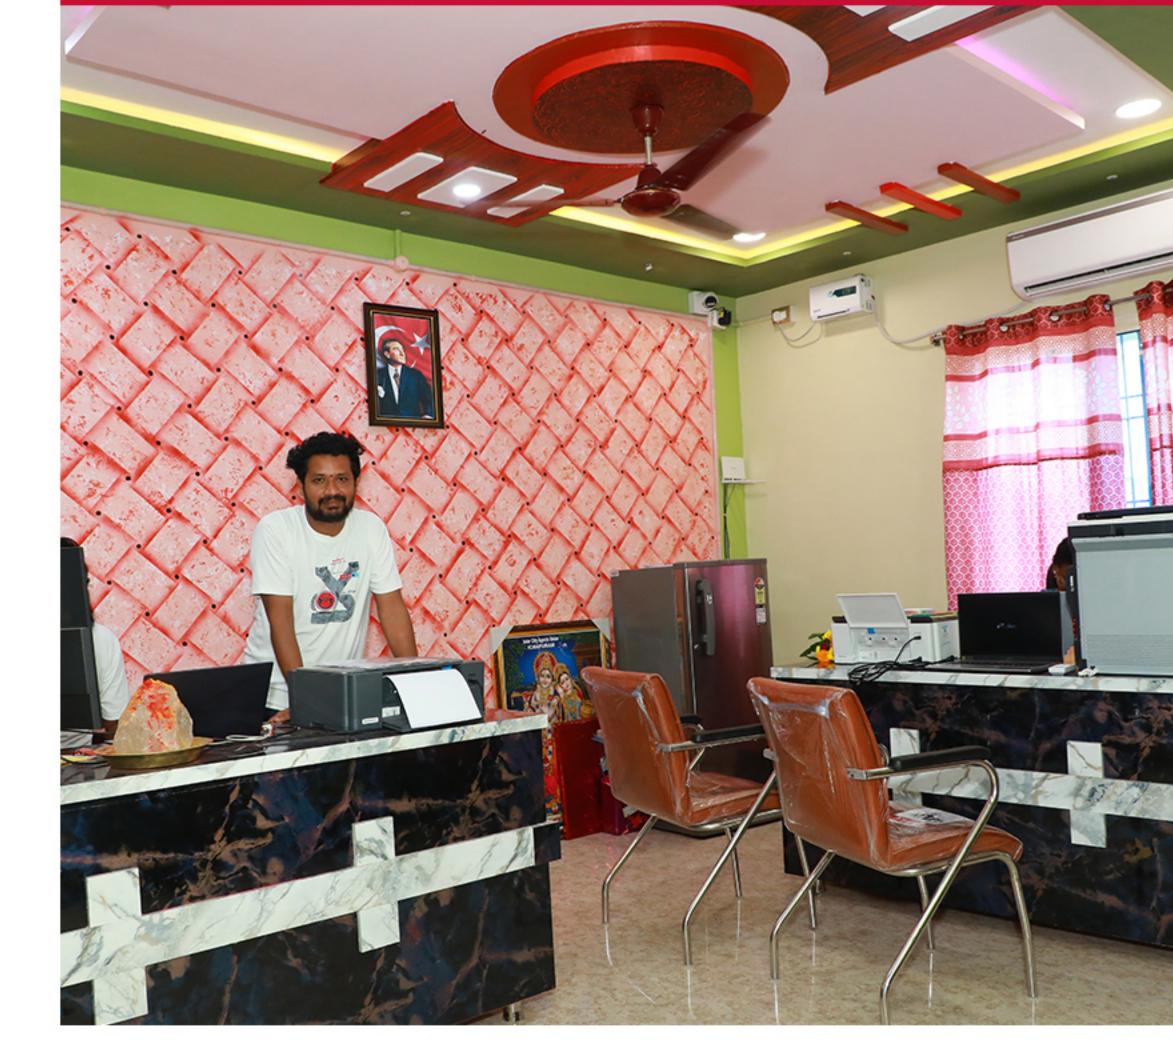

TEST CABIN FOR WELDER

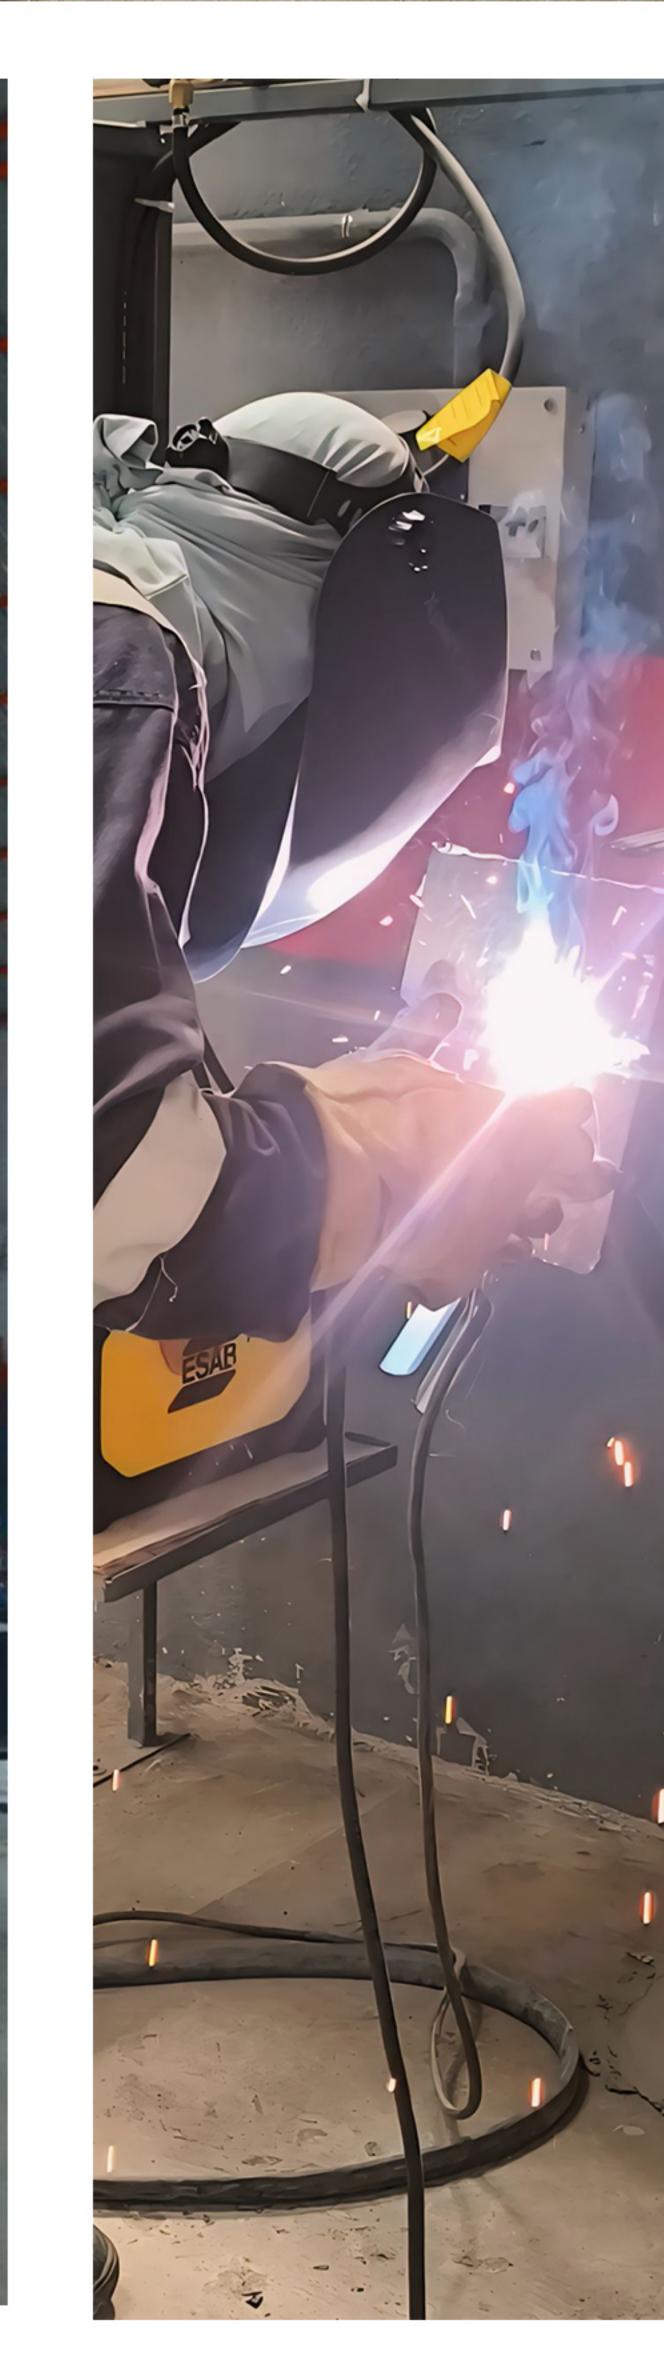

Experience the pinnacle of welding precision with our test cabin designed specifically for welders. Our cabin offers optimal space, advanced welding equipment, and top-notch safety measures, ensuring seamless welding operations. Trust our dedicated test cabin to elevate your welding processes to new heights of efficiency and quality.

ACTIVITIES

E&I AND CABLE PULLER TRAINING

- Hands-on training designed to build practical working knowledge in E&I discipline.
- Focuses on skill development, testing, and validation for skilled personnel.
- Aims to enhance technical proficiency for real-world challenges in engineering and industrial settings.

INSTRUMENTATION & COMMISSIONING

- Offers training with the latest tools and technologies in instrumentation.
- Combines classroom learning and practical experience, guided by experienced faculty.
- Equips trainees to manage and operate advanced instruments in industrial environments.

WELDER TRAINING & CERTIFICATION

- Provides end-to-end services to train, test, and deploy skilled project crews across various fields.
- Hands-On Training: Gain practical experience with advanced welding techniques and equipment.
- Industry-Recognized Certification: Achieve certifications that meet international welding standards.
- Career Advancement: Open doors to new opportunities in welding through specialized training.

TRAINING SERVICES

- Delivered by seasoned professionals with extensive oil and gas industry experience.
- Includes classroom and hands-on training programs tailored for technicians, team leaders, and supervisors.
- Covers up-to-date tools and machinery, helping individuals enhance their technical skills at all levels, challenges in engineering and industrial settings.

TESTING SERVICES

- State-of-the-art facilities for testing in civil, mechanical, electrical, instrumentation, and process engineering.
- Rigorous skill assessments to ensure workers meet the high standards required by the industry.
- Validates competency across multiple engineering disciplines.

SCAFFOLDING AND RIGGING

- Provides comprehensive training in scaffolding and rigging, essential for various industrial tasks.
- Emphasizes safety regulations, techniques, and best practices for on-site efficiency.
- Prepares participants for effective and safe work in industrial and construction sites.

NAKS CERTIFICATION

- Our NAKS certification program prepares welders to meet the stringent standards required for work in the Russian Federation.
- Targeted Training: Receive specialized training tailored to the specific requirements of the Russian Federation's NAKS certification.
- Practical Skill Assessments: Complete hands-on testing that aligns with NAKS standards for work readiness in Russia.
- Enhanced Employability: Achieve certification recognized across Russia, increasing job opportunities within the region.

QUALITY ASSURANCE

- Ensures that clients receive highly qualified and skilled personnel through thorough testing and validation.
- Commitment to delivering top-quality manpower by maintaining rigorous standards.
- Provides skilled personnel who meet the highest industry requirements, ensuring reliability and productivity.

WHY CHOOSE TECH SKILL?

EXPERIENCED FACULTY

Industry veterans with years of Hands-on experience

COMPREHENSIVE TRAINING

Covering all Major Engineering Disciplines

CUTTING-EDGE INFRASTRUCTURE

Equipped for both Training and Testing services

GLOBAL REACH

Expertise in Localization and Training for International Clients

COMMITMENT TO EXCELLENCE

Quality Manpower, Tested, Validated, and Certified

ACHIEVEMENTS

Our team helps you with 100% Placement Assistance. Our team of experienced instructors and welding experts are dedicated to providing personalized training and support to each student, ensuring that they have a comprehensive understanding of the welding trade and the necessary practical skills to excel in their work.

Our esteemed institution has a proud history of successfully placing over 100+ individuals in prestigious positions across Turkey, Qatar, and Abu Dhabi.
